

War Memorials Trust

Grants for War Memorials

Funded by
The Wolfson Foundation and English Heritage

Further notes:

- Applicants are requested to submit their applications as early as possible. Even though applications are assessed by the Panel in batches every six months, early submission is beneficial as it allows for time to send further information (if required after the initial assessment) by the application deadline.
- Candidates are encouraged to submit the required photographs in digital form. This can be either on a CD-Rom or DVD included in the application pack or can be e-mailed to conservation@warmemorials.org stating clearly the memorial's name as it appears on the application form.
- If applying for multiple monuments, please note that it is necessary to fill in individual application forms for each memorial and get quotations for each one individually. To discuss multiple applications, please contact the Conservation Officer on 020 7881 0862. For further copies of the application form, please visit our web site www.warmemorials.org.
